

and departments that participate in the program. Consequently, the legislation does not increase the percentage for STTR awards until two full years after the program has been reauthorized.

We are also conscientious about the fact that we want more research, not less, so we have timed the increase of the Phase II awards to coincide with the initial percentage increase reserved for STTR projects.

Overall, we believe this gradual increase will help encourage more innovation and greater cooperation between research institutions and small businesses. As the program requires, at least 30 percent of these additional funds will go to university and research institutions. Not only do the universities and research institutions that collaborate with small businesses get 30 percent of the STTR award money for each contract, they also benefit in that they often receive license fees and royalties. We are also conscientious about being fiscally responsible, the percentage increases will have no budget implication since it does not increase the amount of the money spent. Rather, it ultimately, after six years, redirects one half of one percent to this very successful program which benefits the economy overall.

This bill will ensure that this successful program is continued and increased. It will also provide Congress with important information and data on the program and encourage more outreach to small businesses and research institutions.

Mr. President, I want to encourage my colleagues to learn about this program, to find out the benefits to their state's hi-tech small businesses and research universities and labs, and to join me in passing this legislation in the Senate as soon as possible. To my friend from Missouri, Senator BOND, I want to thank you and your staff for working with me and my staff to build this country's technological progress. I also want to thank all of the cosponsors: Senators CLELAND, LANDRIEU, BENNETT, LEVIN, LIEBERMAN, HARKIN, BINGAMAN, ENZI and CANTWELL.

Mr. President, I ask that my statement and a copy of the bill be included in the RECORD.

Mr. ENSIGN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating to the resolution be printed in the RECORD.

(2) Direct and unobstructed participation in international health cooperation forums and programs is beneficial for all parts of the world, especially with today's greater potential for the cross-border spread of various infectious diseases such as the human immunodeficiency virus (HIV), tuberculosis, and malaria.

(3) Taiwan's population of 23,500,000 people is larger than that of ¼ of the member states already in the World Health Organization (WHO).

(4) Taiwan's achievements in the field of health are substantial, including one of the highest life expectancy levels in Asia, maternal and infant mortality rates comparable to those of western countries, the eradication of such infectious diseases as cholera, smallpox, and the plague, and the first to eradicate polio and provide children with hepatitis B vaccinations.

(5) The United States Centers for Disease Control and Prevention and its Taiwan counterpart agencies have enjoyed close collaboration on a wide range of public health issues.

(6) In recent years Taiwan has expressed a willingness to assist financially and technically in international aid and health activities supported by the WHO.

(7) On January 14, 2001, an earthquake, registering between 7.6 and 7.9 on the Richter scale, struck El Salvador. In response, the Taiwanese government sent 2 rescue teams, consisting of 90 individuals specializing in firefighting, medicine, and civil engineering. The Taiwanese Ministry of Foreign Affairs also donated \$200,000 in relief aid to the Salvadoran Government.
